Email - shameshrasal77@gmail.com
Address - Pune, Maharashtra

Full Stack Developer with 5 years which includes 1 year of internship experience building scalable web, gaming, and real-time applications with React.js, Next.js, Node.js, TypeScript, and AWS. Specialized in real-time systems (SSE/WebSockets), interactive PixiJS-based gaming platforms, and live financial data visualizations. AWS Certified Solutions Architect with a track record of leading delivery teams and shipping production systems with zero post-release defects.

Technical Skills

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, PHP, Python
- **Frameworks/Libraries:** React.js, Next.js, React Native, Node.js, Express.js, Redux, PixiJS, Tailwind CSS, Bootstrap 5
- **Testing**: playwright, jest, unit testing.
- **Database:** MySQL,MongoDb, PostgreSQL
- **Real Time**: Socket.IO, SSE, Dynamic Graphs, REST APIs
- **Tools:** Postman, Adobe Photoshop,VS Code,WinSCP,MobaXterm,DBeaver,FortiClient VPN
- **Other**: API Integration, Google Maps API, Payment Gateway Integration, Unit Testing, Security Vulnerability Resolution (DAST/VAPT), Deployment on VM, Generative AI
- **Version Control**: Git, GitHub, Tortoise SVN
- **Cloud**: AWS (EC2, S3, RDS, VPC), Vercel, Supabase, Render, CI/CD, VM Deployment

Professional Experience

Prometteur Solutions | Senior Full Stack Developer **Dec 2025 - Present**

- Working on gaming and interactive platforms using Next.js, React.js, Node.js, TypeScript, and PixiJS.
- Built and shipped 5 PixiJS-based games, [improving load/render performance by 37%] through optimized rendering and asset handling.
- Implemented real-time systems using Server-Sent Events (SSE) and socket connections for instant updates.
- Integrated live chat support systems with real-time communication capabilities
- Built dynamic Bitcoin and financial graph visualizations with high-frequency live data updates
- Worked on geolocation services and payment gateway integrations.
- Utilized Playwright and Jest for automated testing and application reliability.
- Leveraged Generative AI tools including GitHub Copilot, Claude, Gemini, Windsurf, Codex, and Antigravity toimprove development productivity and accelerate feature delivery.

Tata Communications Transformation Services (TCTS) **April 2025 - Nov 2025**
Senior Software Application Engineer

- Led a team of 5 developers across Unify PPM, Fiber360 PPM, and Survey projects, ensuring timely delivery and high-quality deployments.
- Resolved DAST/VAPT security vulnerabilities and black-box issues, achieving full compliance and production readiness.
- Managed end-to-end testing, CI/CD deployments on VMs, and collaborated directly with clients for onboarding and support.
- Worked on PostgreSQL, Google Maps APIs, and AWS infrastructure to enhance performance and system security.

vmedulife software | Pune **September 2022 - March 2025**
Software Developer

- Developed Online Feedback and Assessment modules from scratch using React.js, Node.js, PHP, Next.js, React Native, Tailwind CSS, and TypeScript.
- Built secure and high-performance backend services and REST APIs using Node.js and Express, enabling seamless data flow and improving overall system efficiency.
- Implemented cloud solutions using AWS, deploying scalable applications on AWS infrastructure to ensure high availability, cost efficiency, and optimal performance.
- Demonstrated excellent problem-solving and troubleshooting skills, capable of breaking down complex, ambiguous requirements into clear actionable tasks.

CERTIFICATION

React.js Certification *Scaler* **Oct 2024**
AWS Certified Solutions Architect – Associate *Scaler*

INDEPENDENT PROJECT

MajhGhar - Full Stack Property Marketplace Platform | Personal Project **Jun 2014 - Present**

- Designed and built a full-stack property marketplace platform end-to-end using Next.js, Node.js, MongoDB, and AWS.
- Architected property listing, user authentication, lead management, and admin workflow systems.
- Implemented SEO-optimized, server-rendered pages to improve organic search visibility.
- Owns deployment, CI/CD, and production monitoring independently.

EDUCATION

Shivaji University kolhapur **Jun 2014 - March 2018**

Bachelor of Technology
CGPA: 7.5

LANGUAGES

- English (Intermediate)
- Hindi (Fluent)
- Marathi (Fluent)

ACHIEVEMENTS

- 🏆 5 Awards at TCTS (4 Bravo + 1 Extra Mile) for exceptional performance and leadership.
- 🚀 Delivered multiple production deployments with zero post-release defects.
- Consistently rated “Excellent” in manager and client performance reviews
